Craig Linderoth got a big and unpleasant surprise when he headed out to his Indian Lake fish shanty on New Year's Day. When he arrived at the spot, about 200 yards offshore from the Arrowhood landing, he discovered that the shack had suffered significant damage. In fact, it was actually missing two walls. Clearly, a snowmobile traveling at high speed had run right through the shanty and destroyed it. Anyone with information about the incident is asked to call Linderoth at 341-8582 or contact the Schoolcraft County Sheriff's Department at 341-2122. (Submitted photo)
